Miniature Circuit Breaker (MCB)

- ISI / CE Marked as per IS/IEC 60898 -1
- Breaking Capacity 6kA** and 10kA
- Green Compliance: RoHS, REACH, EoLI, PEP
- Energy Limiting Class 3
- Trip Free Mechanism

- Fast Tripping
- Suitable for Positive Isolation
- Line Load Reversibility
- Laser Printing
- Bi-connect Terminals

- Degree of Protection IP 20
- Operating Voltage 240V / 415V
- Frequency 50Hz

ELECTRA Metal Clad Plugs & Sockets are specially designed incorporating the latest safety, quality and user friendly features.

Construction

- The casting is made from non-corroding die-cast aluminum alloy combining exceptional compactness with high strength
- The design/construction eliminates the possibility of mismatch in fitting of plugs in corresponding sockets
- The floating contacts in the sockets are self aligning and facilitates smooth plugging in without undue pressure (These can be easily removed for wiring)
- A provision for pilot pin facilitates mechanical interlocking in case of 63A ratings

Human Safety

Specially designed shroud to avoid accidental finger contact with plug-pins while inserting/removing the plug
Similarly, the contact tubes in sockets are deeply recessed to avoid human contact

- The earthing pins ensure that earth connection is made first and broken last, being longer than conducting pins
- The visible earth terminals facilitate easy checking of earth connection
- The cable grip to the plug is made very strong by providing a compression gland and by protecting it at the point of entry by a strong rubber guard

Applications

Industrial, Commercial & Domestic portable equipments like Hand/Power Tools, Industrial Ovens, Welding Sets, Mobile Generators, Furnaces, Ships, Office Machines, Refrigerators, Coolers, Air-Conditioners, Overhead Cranes, Chilling Cabinets, Tile Polishers and Sewing Machines

Award-winning Designs: In 2017, AvatarOn gained international recognition for its innovative design and quality excellence and was awarded the iF Design Award

Ingenious Beauty

- The ground-breaking AvatarOn series is a true marriage of aesthetics and practicality, making it a perfect choice for all home or office designs.

Safe and Reliable

- Our patented "Slim Rocker, Sure Click" SS technology not only gives AvatarOn a greater thinness overall, but also a near-zero contact jitter that reduces sparks, thus ensuring a safe and reliable use.

Customisable Covers for True Adaptability

- AvatarOn switches are available in an array of replaceable covers for full customisation and integration into any home decor. The customised pattern covers of AvatarOn provides you with an extra canvas to showcase your creativity in a subtle yet apparent way.

Modern Look

- The stylish and streamlined design of AvatarOn switch covers are finished in white, soft wood, dark wood and gold hairline materials for a classic look and universal elegance.

Tech-chic Design that Shines

- The AvatarOn soft LED locators merges seamlessly with its sleek giant dolly, creating a stylish and streamlined design and glow with a soft luminescent in the dark, indicating the exact location of each switch at night.
