

Janatics GR5105008

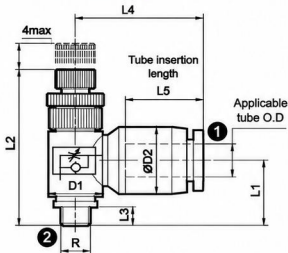

Flow Control Valve – 8 mm x 1/8"

Janatics GR5105008 is a compact pneumatic flow control valve designed for precise air-flow adjustment in pneumatic circuits. It is suitable for 8 mm OD tubing with R1/8 male thread and is ideal for controlled actuator speed adjustment in automation applications.

Key Features

-  Fine pneumatic flow adjustment
-  Compact inline design
-  Suitable for 8 mm OD tube
-  R1/8 male threaded connection
-  Durable industrial construction
-  Ideal for automation and pneumatic systems

Technical Specifications

Parameter	Value
Model	GR5105008
Product Type	Flow Control Valve
Thread	R1/8
Applicable Tube OD	8 mm
Hex	12 mm
L1	18 mm
L2	39 mm
L3	35.5 mm
L4	27 mm
L5	17 mm
ØD1	13.5 mm
ØD2	15 mm
Free Flow (min.)	200 Lts/min
Controlled Flow (max.)	140 Lts/min
